ABOUT US

SOFTWARE DEVELOPMENT COMPANY

New IT Venture (NITV) established in 2004 is a Japan based software development company which helps business realize their vision and achieve their goal by harnessing trendsetting web and mobile technologies.

At NITV we strive our best and offer client centric services to customers which gives them competitive edge.

We care about who we work for and the quality of work we deliver, which is clearly depicted by the results we deliver and our portfolio.

We have a team of passionate Business Analyst, Software Engineers, UI/UX Designers, Test Analyst who are always up for a new challenge and hungry to solve problems with amazing solutions.

We offer a complete range of web & mobile application services, including initial prototyping, design, Android / iOS mobile development, as well as application backend and web infrastructure.

NITV has created cutting edge software application from ground up as well as adding a layer in existing system such as:- giving face lift to their existing app, adding monetization capabilities, multiple platform for their existing application, data visualization and analysis, and many more.

Whether you are already a big player who is looking to enhance their website or business applications or a startup just looking to tap the market, we are here to work as your technology partner.

NITV team's strength lies in perceiving the client's business processes, culture, vision and goals across the industry segments and offering client oriented solutions, which are highly reliable.

With a mix of domain, technology & project management experts, we bring the most complete team to bear on every project we take on.

With our strong sales & marketing presence across the globe gives us the ability to strengthen existing relationships, build new ones & enter new markets.

On the other hand, our alliance partners give us an extended reach into markets where we do not have a direct presence.

NITV SERVICES

Software Development and Consulting
Company

1 Android App Mobile/Tablet

We have a highly skilled team of android developers who has years of experience in creating android applications. We have developed various android application for clients such as NETTV, World TV Go, World On Demand where we created an application from the ground up.

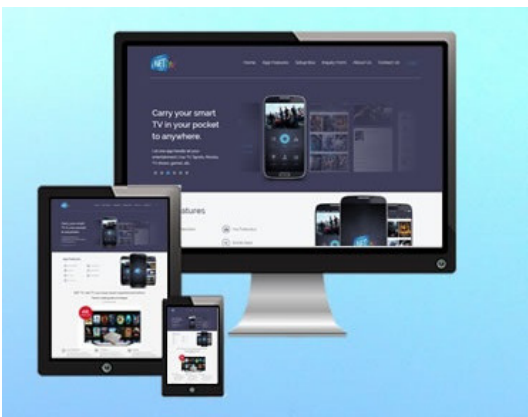

Our projects have given us extensive experience in integrating your applications in multiple platform such as website and android Application. Alternatively we can also create a stand alone android application.

2 iOS App Mobile/iPad

We have a specialized team of trained iPhone app developers, who expertise in expert development of iPhone apps under various commonly used categories like: Booking, News, Weather, Education, Healthcare, Social Media, Music and entertainment, to name few.

3 Responsive Websites

Following the new trend and working upon our client's requirements, we develop a creative website. The 3-Ds (Design, Development, and Delivery) are the main challenges for any working team in such creative work where market itself is ocean of creativity; thus we indulge expert's analysis in these 3-Ds where perfection is equally prioritized. An efficient, user-friendly, and compatible to all screen sizes and resolutions (mobiles, tablets, kindle) websites are designed, developed and delivered with perfection to our clients anywhere.

4 Web App Development

At NITV we provide custom web Application development service to Enterprise business and start up. We help business realize their vision and turn them into reality by harnessing trend setting technologies such as :

- Node.JS /AngularJS
- PHL- Laravel
- MySQL
- Java
- Python

NITV SERVICES

Software Development and Consulting
Company

INTRODUCTION

Tourism reaches into the varied aspects of Nepalese life and its benefits are encompassed by diverse sectors directly and indirectly. It generates employment opportunities and helps in the promotion and conservation of the art and culture. The tourism industry is one of the foreign currency earners in the country and thus makes a significant contribution to the economy. Government of Nepal has been actively promoting tourism in Nepal and has always encouraged the private sector for their invol...
